WHO ARE BAW AUTOMOTIVE

BRISBANE'S PREMIER 4WD FACILITY

At BAW Automotive, we stand at the forefront of 4WD customisation, proudly distinguishing ourselves as a leader in the industry. Our journey began with a singular focus: to revolutionise the 4WD experience for enthusiasts and professionals alike. Today, we are not just a service provider; we are innovators, problem-solvers, and passionate advocates for all things 4WD.

LOCALLY OWNED AND OPERATED

Our core expertise lies in comprehensive transformations, where each 4WD receives a blend of aesthetic finesse and performance enhancement tailored to its unique character. Our state-of-the-art facility is equipped with cutting-edge technology and manned by a team of seasoned professionals who bring a wealth of knowledge and skill to every project.

Supply Nation's world-leading verification provides peace of mind and verifies Aboriginal & Torres Strait Islander owned/operated businesses, so you can rest assured when you shop with us you are supporting an Aboriginal owned business.

The MVSA legislation has ended for 4x4 Workshops and was finalised on June 30 2023. It is now a requirement for all Second Stage Manufacturers (SSMs) in Australia to be RAW approved. This certification enables us to carry out our builds within the full compliance of the law, ensuring that all our modifications and manufacturing processes are done to the exacting standards expected by the regulatory authorities.

MEET OUR FLEET TEAM

AMY

Amy stands at the helm of BAW Automotive, steering the company with a blend of passionate leadership and strategic acumen. Amy's considerable experience extends to the intricacies of fleet management, having overseen extensive fleet operations. Her strategic approach to optimising fleet efficiency and performance has significantly contributed to BAW Automotive's reputation as a leader in providing robust solutions for 4WD vehicles.

DAVE

Dave's robust background in the automotive arena has not only honed his skills in 4WD vehicles and aftermarket modifications but has also seen him excel in managing fleet operations for mining and construction vehicles. His deep understanding of the unique demands of rugged environments and his ability to outfit fleets for peak performance make him a vital asset to our sales division.

BRENT

Known for his hands-on expertise, Brent is the powerhouse fleet supervisor and head auto electrician at BAW Automotive. With a spark for innovation and a circuitry of knowledge in the 4WD realm, Brent not only connects wires but people, steering clients towards the ultimate in vehicular perfection. His high-voltage passion for 4WD adventures and an extensive toolkit of experience make him the driving force behind BAW's success.

Amy, Dave and Brent form the dynamic core of our fleet repair team at BAW Automotive, and they are eagerly looking forward to collaborating with you to deliver outstanding results and exceptional service.

STEP 1

Consultation & Needs Assessment

STEP 2

Customised Solution Design

STEP 3

Precision Installation & Quality Control

STEP 4

Ongoing Support & Service

OUR PROCESS

ALL ABOUT LISTENING

Our team conducts a comprehensive consultation to understand the unique requirements of each fleet. We assess the demands of your work environment, vehicle usage, and specific upgrade needs to tailor a solution that enhances performance, safety, and reliability.

BLUEPRINT FOR SUCCESS.

Leveraging our extensive industry experience, we design a customised upgrade plan. This includes selecting the appropriate accessories and modifications that align with your fleet's operational goals, from robust GVM upgrades to high-performance suspension systems.

WHERE OUR EXPERTISE SHINE

Our skilled technicians perform precision installations using only top-tier aftermarket parts. We follow stringent quality control protocols to ensure each upgrade meets our high standards, ensuring that your fleet is equipped to tackle any challenge.

OUR COMMITMENT TO YOU

Post-upgrade, we offer comprehensive support and services to keep your fleet in peak condition. With regular check-ins and accessible customer service, we ensure that your vehicles continue to operate at their best, offering peace of mind and unmatched aftercare.

With BAW Automotive, fleet upgrades are more than just a service; they're a partnership for excellence on and off the road.

OUR COMPREHENSIVE SERVICES

First Aid Kits: Essential tools for emergency readiness.
Safety Flags and Triangles: Enhancing vehicle visibility and road safety.

Jump Starters and Isolators: Crucial for managing power and emergency starts.

Bacons and Reverse Alarms: Increasing awareness and preventing accidents.

Handbrake Alarms: Additional safety for stationary vehicles.

Stripping and Call Signs: Custom solutions for identification and branding.

Wheel Nut Indicators and Wheel Chocks: Essential for tire safety and maintenance.

Fire Equipment: Meeting fire safety standards.

Bullbars: Robust frontal protection for rough terrains.

Trays and Canopies: Tailored cargo management and protection options.

These offerings represent just a glimpse into our extensive catalog. We also provide comprehensive 12v system setups, sophisticated storage and drawer solutions, advanced lighting systems, and performance enhancements, plus much more to meet all your 4WD fleet requirements.
